INVITATION

Dear Colleagues,

Greetings from Team MASICON 2020, Amravati

At the outset I would like to thank each and every member of Maharashtra Chapter of ASI for supporting our bid for hosting MASICON 2020 and expressing faith in our capabilities to organize the mega event.

Team MASICON-2020 Amravati invite you with folded hands to attend the conference from 23rd to 26th January 2020.

A combination of highly educational CME programme which will include Informative Lectures, Symposium and Panel Discussion with an equally Educational Workshop will be the hallmark of the conference. As the theme of the conference is “From Traditions to Trends” we will try to cover basic principles of surgery up to the prevailing trends and the modern concepts in surgery.

All work and no play makes Jack a dull boy. We promise to keep your zest and zeal for learning intact for three days by organizing good cultural events on all the three evenings which will include the display of full cultural heritage of India in Dance, Music and Singing.

We guarantee a great educational feast and cultural feast along with tongue titillating food and fellowship.

We request you to reserve your dates 23rd, 24th, 25th and 26th January 2020. We request you to attend on all the four days as each day will be exceptional in its own right.

It is our solemn affirmation that we will leave no stone unturned to make MASICON-2020 a very grand event the memory of which will be cherished for years to come.

Earlier it was referred as Hanuman Akhada. Many political leaders and freedom fighters have visited HVPM. It is said that Shivaram Rajguru studied at HVPM. During his hideout Chandrashekhar Azad also stayed here for few days. The institution also has an engineering college in its campus run under the same management committee.

5) Tapovan: Tapovan represents humanitarian oneness with the under-privileged and sublimity in human Endeavour. A freedom fighter and humanist Dr. Shivajirao Patwardhan set it up in 1950 to restore humanity to the de-humanised leprosy patient to remove stigma, fear and ignorance about the disease and to make the victim self-reliant by earning his/her own livelihood. Today Tapovan proves to the world that dignified rehabilitation-a capacity to earn one's living is the path to the restoration of humanity. The Vidarbha Maharogi Seva Mandal, Tapovan looks after leprosy-affected children and the children of leprosy patients, who are treated and given education in our school. Tapovan develops interaction between the healthy visitors and the inmates to ward off the ignorance and lessen the rigours of the stigma.

6) Shree Shivaji Education Society: Shree Shivaji Education Society is the largest Educational society in Vidarbha. It was established by Dr. Panjabrao Deshmukh at Amravati. The tekri was developed in its present avatar after creation of the Maharashtra, the road from the base upto the beautiful and picturesque garden and foot steps up to the top of the Tekri were constructed. The place is favourite among the locals and must 'Dekho' for their guests. The view of the city and its neighborhoods in night from the top of the Tekri is very amazing. It is also a boon for sky gazers to spot their favorites constellations, stars and planets in moonless nights.

8) Kaundinyapur / Jahangirpur: Kaundinyapur or Kaundanyapur is a village in Amravati District in the state of Maharashtra, India, thought to be the site of Kundinapuri, ancient capital of the legendary Vidarbha Kingdom. Kaundinyapur is the capital of the Vidarbha Kingdom mentioned in the Mahabharata. It is believed that Rukmini haran Shri Krishna rested here for a while and drank water from the Wardha River (the present name of the River Vardayini). There is a famous temple of Vitthal and Rukhmini. The state archaeological department conducted excavations at Kaundinyapur to "ascertain its antiquity". The dig revealed traces of the rampart of the ancient city. "The stone, foundation and brick walls of what appeared to be a palatial building, probably of the 14th or 15th century AD, have also been discovered," the report adds.
